

Realize your professional goals in a world-class career setting.

Join the 400 affiliated doctors and 4,500 medical professionals who deliver world-class healing and prevention in our community. The health system has six hospital facilities in Southwest Georgia, anchored by Phoebe Putney Memorial Hospital – a 671-bed tertiary referral center which is a regional center for cancer and cardiac medicine. Phoebe is a state-designated perinatal center and the Phoebe Heart Center performs more cardiac catheterization procedures than all other hospitals in the region combined. Phoebe is the region's only provider of:

- Neonatal Intensive Care
- Cardiovascular Surgery
- Electrophysiology
- Radiation Oncology

*World-class Health Care
with Hometown commitment.*

Phoebe Putney Health System is a not-for-profit integrated healthcare delivery system that serves more than 500,000 residents in Southwest Georgia. Phoebe's facilities, advanced medical technologies and treatments, as well as our highly qualified professionals, have distinguished us as a healthcare leader.

Within the entire Phoebe Family more than 4,500 physicians, employees and volunteers care for patients in 35 counties, keeping primary care close to home to give residents seamless and affordable health care.

Phoebe Physician Group is a self-governing not-for-profit entity that includes clinic practices and hospital-based physicians throughout Phoebe Putney Health System. PPG offers common services for employed physicians, including revenue management, practice management, contracting, staff development and more.

The flagship facility, Phoebe Putney Memorial Hospital is the region's largest tertiary care provider. With hospitals in five communities, Phoebe offers a full spectrum of care for residents in Southwest Georgia, ranging from outpatient specialty services to some of the most advanced surgical, cardiac and cancer treatments. Phoebe's leadership has long held to a mandate to keep high quality care and services close to home, and over the years Phoebe has grown into a superior network of health care facilities and technologies, providing cutting edge treatments and research to those we serve.
